

HOTEL FIRE

Causes Death of Fourteen People in Chicago.

Nearly All the People Were Stock Show Visitors.

Blaze in Lincoln Hotel is Supposed to Have Caught From Escaping Gas on Upper Floor--The Property Loss is Small. People Smothered.

Chicago, Dec. 4.—Fourteen bodies of persons who were suffocated in a fire at 5:55 o'clock this morning at the Lincoln Hotel in Madison street, await identification at morgues. Nearly all of them are believed to be persons that were here to attend the live stock show.

Ten injured guests of the hotel are at hospitals suffering from hurts received by jumping from windows of the burning building to the roofs of adjoining structures.

The injured are:

R. C. Hamilton, a stock raiser from Lebanon, Ind.

W. J. Thomas, a mail clerk employed on the Chicago, Milwaukee & St. Paul railway.

A. S. Haines, Fairmont, Ind.

J. D. Mayer, Burlington, Ia.

Mrs. J. Sheppard, and her seven year old son Fred

Wm. Hangraves, Davenport, Iowa.

Edward Weber, clerk of the hotel, who was on duty at the time the fire began and is being detained by the police pending an investigation.

None of the injured persons is seriously hurt. Mrs. Sheppard jumped from the third story of the hotel to the roof of a restaurant in an adjoining building with her child in her arms. She is thought to be internally injured.

All those who met death were suffocated. The flames were not extended to their rooms but clouds of smoke poured into the sleeping apartments and those within them either died before becoming fully conscious or were unable to find their way to doors in time to escape the effect of the smoke. Most of the bodies were found in bed indicating that consciousness of their appalling situation never came to them.

When the bodies were removed to the sidewalk by firemen and policemen they were examined for purposes of identification, but the victims were strangers and the hotel clerks could not recognize them.

The fire originated between the second and third floors from an unknown cause. The building was heated by steam and stoves. Electricity and gas were used for illumination. It is supposed that a guest left a gas jet open and the escaping gas ignited. The fire burned for some time before it was discovered. The hotel was patronized by farmers and visitors from the country. Last night 120 guests were registered. The rooms were filled and cots were placed in extra rooms and hallways to furnish sleeping accommodations.

The hotel occupied the second, third and fourth floors above Jos. Brown & Co.'s jewelry store. When the guests were aroused by cries of fire they stampeded to the narrow hallway that afforded the only means of exit to the street. The passage was blocked by struggling men who fought each other with desperation. No headway was made by the flames and the panic-stricken crowd quieted down, leaving the building in scanty attire. Barefooted and half clad guests of the hotel were cared for at restaurants and stores until sufficient clothing could be obtained.

Attendance at the live stock show is larger than ever before and accommodations at the hotels patronized by stock raisers have been taxed to the limit. In all other small hotels downtown and in the stock yard district visitors are forced to crowd into rooms

and sleep on cots in halls. Coroner Traeger has ordered an investigation to learn if the building laws are complied with by the owners of these places.

The flames were confined to the second and third floors and the loss did not exceed \$4000.

The body of H. K. Wood, of Lebanon, Ind., has been identified.

A man known to the hotel manager as "Mack" was sent to the third floor where the fire began at 5:30, to call a guest for an early train. He failed to awaken the guest and has not been seen since the fire. The police are searching for him, convinced that he knows the origin of the flames if they were not caused by his carelessness. Identification of the bodies is difficult because of their disrobed condition. The firemen do not remember from what rooms the dead were taken and they cannot be identified by the hotel clerks.

The following have since been identified:

Ed. Toner, supposed to be from Milwaukee.

P. V. Stocum, Woodstock, Ills.

M. M. Farley, Janesville, Wis.

S. C. and I. C. Yocum, Davenport, Iowa.

F. H. Corey, Bucyrus, Ohio, mail clerk.

A. B. Coon, Marengo, Ill. Ward Lowe, mail clerk, Sechlesville, Wis.; Frank L. Ewing, mail clerk, Mansfield; D. T. Boswell, residence unknown.

At 11 o'clock today the search of the building had been finished and all of the bodies, a total of fourteen, were recovered. The police and building departments are making a rigid inspection of the premises and it is likely that prosecutions will follow. The building was practically without fire escapes and all of the hallways were so narrow that two men could not pass abreast.

REED

Ex-Speaker is Reported to Be in Critical Condition.

Washington, Dec. 4.—(Bulletin)—Ex-Speaker Reed's condition is reported much more serious this afternoon.

Washington, D. C. Dec. 4.—Ex-Speaker Reed passed a good night and the doctors hope that owing to the age and weight of Mr. Reed that an operation will not be necessary.

It is understood that for some time Mr. Reed has been afflicted with Bright's disease. His doctors admit that complaint has manifested itself in his kidneys, and that it threatens to be more troublesome than appendicitis.

Rathbone Case.

Washington, Dec. 4.—Major Estes D. Rathbone former director of posts in Cuba, has arrived here to push his claims for vindication.

Military spectators present at the review of the Argentine army are reported to have said that the evolutions and appearance of the troops were worthy of the best organized armies.

Married Wrong Man.

Forday, O., Dec. 4.—Mrs. David Isenbarger, 19, committed suicide by swallowing carbolic acid. Pinned to her dress was a letter addressed to Mike Gonyer, a laborer, with whom she had been in love ever since a few weeks after her marriage to Isenbarger two years ago.

"Blew" His Money.

Chagrin Falls, O., Dec. 4.—Ben Barber, a farmer of Orange Township, read in the newspapers the accounts of burglars entering houses in this vicinity and taking money, so he struck upon a unique method whereby he hoped to foil any attempt to steal his hard-earned cash.

He was too busy to come to town to deposit his money in the bank, so he hid part of it in various parts of the house, and put a twenty-dollar bill in the barrel of his shotgun.

Yesterday he went hunting and shot a rabbit, and ever since has been looking for the pieces of the bill.

COLLISION

Near Coshooton in Which One Man Was Killed and Seven Others Injured.

Coshooton, O., Dec. 4.—At 2:30 this morning a Pan Handle work train and a T. W. U. & O. engine and caboose ran together one mile east of Coshooton. Engineer Vee of Toledo, was killed. Seven trainmen were hurt. Conductor Armstrong of Columbus, was badly cut. The cause of the accident has not yet been placed.

BOUGHTON.

Morgantown, W. Va., Dec. 4.—The chair of civil engineering in West Virginia University, vacant since the resignation of Prof. John T. Johnson last June, has been filled by the appointment of Prof. Wm H. Boughton of Denison University, Granville, O., who will take charge April 1.

EXPLOSION

ON A SHIP CAUSES DEATH AND DESTRUCTION

Dozen Men Missing, Score or More Hurt, and Property Loss is About \$300,000.

San Francisco, Dec. 4.—While the steamer Progress was lying at the wharf of the Fulton Iron works at Harbor View, an explosion occurred. As a result twelve men are missing, injured and property valued at \$200,000 was destroyed.

Below the decks the mechanics were busy completing the work of changing the vessel from a coal carrier to an oil burning carrier, when suddenly one of the oil tanks blew up. Men were hurled against the steel wall and a sheet of flame came sweeping into their faces. On the upper deck men were hurled into the air or thrown into the water. Three sailors engaged in washing paint outside the pilot house disappeared as the cloud of black smoke came up from the ship and were seen no more.

Following the explosion the ship sagged in the center, showing that she had broken in two. In the office of the iron works, twenty feet away every window was shattered and flying glass cut the faces and hands of many of the officials and clerks. As they rushed out into the open, survivors who were able to help themselves, were leaping from the ship. A great crowd of mechanics came running out of the works. As soon as the panic had subsided, these men set to work to rescue men from the burning vessel. A stream of burning oil running from the tanks, spread out until the ship lay on waves of fire. The flames crept under the wharf and soon the timbers were blazing, adding to the difficulty of the work of rescue.

CASE

Against the Paul Estate Is Compromised

Mrs. Fleming Virtually Wins Her Suit.

FAIR WIDOW GETS ONE-FOURTH OF THE SUM

OF MONEY THAT SHE DEMANDED

Objectionable Affidavits Withdrawn by Attorneys and the Famous Case is at an End.

Columbus, O., Dec. 4.—Mrs. Mary B. Fleming, of Delaware has virtually won her suit against the estate of Cary B. Paul, the deceased millionaire banker and business man of that city.

Shortly after his death two years ago, Mrs. Fleming laid claim to about \$85,000 of his estate. She asserted that she had occupied certain relations with Paul, and that she believed that he intended to keep his promise to marry her. Much of the property that she claimed was given to her outright by Paul, and loaned back to him at different times to meet the exigencies of his business. The Paul heirs attacked Mrs. Fleming in a number of sensational affidavits, holding that she had received a quid pro quo in the form of money and support during the existence of her relations with the dead man. She countered with a number of letters written to her by Paul in his lifetime. Last week she went to Detroit to inquire into the character of certain witnesses that had been summoned by the defense, and succeeded in collecting some very damaging testimony against a man who had filed an affidavit. He was shown to have been the inmate of a state prison for a felony. Yesterday the suit in the United States Court here was withdrawn, the Court consenting to an entry signed by both sides. In asking for a dismissal of the suit the defendants' attorney requested permission to withdraw the objectionable affidavits against Mrs. Fleming's character.

Judge Thompson assented to this request but insisted that a record of the proceedings should be made. It is understood that the sum paid Mrs. Fleming as a compromise for her original claim is \$20,000, or about one-fourth of the sum demanded at the filing of the suit. Paul was one of the best known business men in Central Ohio, at one time owning the Jaltenden Hotel in this city. For years it was supposed by his friends here that Mrs. Fleming was his wife, as she accompanied him on his visits to this point and was constantly in his company upon his travels throughout the country.

Mrs. Fleming was preparing the suit against her companion when death seized him suddenly. After breaking off their relations Paul was married for the second time, and left a widow and some children by a former marriage. The sudden withdrawal of the defendants is taken as a confession that Paul was really interested with Mrs. Fleming in many business deals. She averred in her petition that she was conducting a paying millinery business when her relations with Paul began and that he induced her to give it up.

In the course of letters written by Paul to Mrs. Fleming Mr. Paul did not take time to date his epistles. The postoffice date marks on the envelope are the only means of fixing the time the letters were written.

In April, 1896, from Cleveland, Ohio he wrote to Mrs. Fleming:

"My Dear Wife: I have yours of yesterday. Will you kindly tell me why it is you will not even mention things which I ask you? You must be anxious to drive me away, but I don't see how you are to do it. You will find that I am hard to shake. I am going to have you or bust; so that down. "Your Own Husband"

Compelled To Marry.

Toledo, O., Dec. 4.—Mrs. John Crisp, the 15 year old wife of 19 year old John Crisp, filed petition for divorce, alleging that Crisp compelled her to marry him at the point of a loaded pistol.

Statehood Bill.

Washington, D. C., Dec. 4.—Immediately upon assembling today the Senate agreed that when adjournment was taken today it be until Monday. Mr. Beveridge, chairman of the Senate committee on territories, sent to the desk and had read a lengthy telegram from a non-partisan single statehood convention held in Oklahoma City yesterday embodying the resolution adopted by the convention favoring the creation of a State from Oklahoma and Indian Territory and opposing the passage of the omnibus statehood bill.

INHUMAN

Driver Refused to Let Frantic Mother Use His Blanket to Save a Child.

Cleveland, O., Dec. 4.—At the Coroner's inquest into the death of Emma Genseler, the sixteen-year-old girl of No. 48 Becker street, who was burned to death Monday, the girl's mother stated that she had run into the street after her daughter, who was then only partly burned. As she ran, she said, she caught the blanket off the back of a horse attached to a hay wagon in front of the house. She intended wrapping the blanket about her burning daughter to smother the flames. The driver of the wagon, however, she claims, snatched the blanket out of her hands, declaring that it was new and did not wish it burned.

Timely use of the blanket would have saved the girl's life according to Coroner Simon, and he is looking for the driver who was thus indirectly responsible for the loss of life.

MANY STATES

BENEFITED BY THE IMPROVEMENT OF OHIO RIVER.

Delegation Visits Washington to Tell President That It Is Of National Importance.

Pittsburg, Pa., Dec. 4.—Congressman elect H. Kirke Porterfield, Capt. W. B. Rodgers and John Eaton left last night for Washington. They will have a conference with President Roosevelt relative to Ohio river improvements. The conference was arranged several days ago and will last about one hour.

The delegation, which will include several members of the Improvement Association residing at Cincinnati, will meet today and the delegation will be ushered into the presence of the President.

The primary object of the visit is to present to the President the resolutions passed by the last session of the Ohio Valley Improvement Association held at Parkersburg, requesting that the Congress of the United States take such action as will insure the improvement of the Ohio river with a system of locks and dams, so as to give the shipping interests a nine-foot stage of water the year round from Pittsburg to Cairo by the time that the isthmian canal is completed.

President Roosevelt is known to be in favor of Ohio river improvement from an address delivered at Cincinnati, when he expressed himself in no uncertain language as favoring the great project.

As the improvement of the Ohio river will directly benefit 26 states, or one half of the states of the Union, the river interests hope to be able to make the case one of national aspect. It is not an issue alone with river men, so the latter say, but with the great business interests of the country, who have taken a hand in the matter and will endeavor to bring it to a successful conclusion. They argue that any public improvement that will benefit half the states of the Union should be made a national issue.

WARSHIPS

Gathering to Swoop Down on Venezuela.

Menace to Monroe Doctrine Seems So Critical

That Prompt Action is Necessary by the United States to Prevent Aggression--England and Germany are Pressing Their Claims.

Washington, Dec. 4.—Twelve European ships of war to seize Venezuelan custom houses and otherwise terrorize a little South American republic.

That is the way the German-British Venezuelan situation appears to the officials here. A slight misunderstanding between the United States and Great Britain and Germany as to the declared intention of these Powers to proceed at once to crush Venezuela may make important history within the next two weeks.

It is not denied here that this latest phase of an aggravated case which was about to be settled is one of considerable concern to the Administration.

The magnificent show of intimidating foreign force is all because the predecessors of President Castro failed to pay about \$2,000,000 of interest guaranteed to German citizens who advanced money to build a railway from Caracas to Valencia. That is the main point, but Great Britain has chosen to make joint cause with Germany, because she avers that some of her citizens were maltreated during the recent revolution, and because President Castro's little ships dared to notify the British cruiser Retribution that there existed a blockade of the Orinoco river.

The United States did not believe that the blockade was effective but it refrained as a friendly act from joining the British and German ministers at Caracas about a month ago when they declared that there was no blockade.

This was, as it develops now, to give Great Britain a chance to get into the dangerous game she and Germany are now playing.

It happens that Admiral Dewey will be on Saturday in command of the greatest fleet of the United States and at Culebra, and will be in close call of his services with one, two or more ships should they be needed at La Guayra, which is the rendezvous of the Anglo-German squadrons.

Germany has now at La Guayra the Vinetta and the Falke. The press dispatch from Bermuda notes the ordering of the British ships Retribution, Tribune, Quail, Charlydis and Alert to La Guayra. Germany is to re-enforce the Falck and Vinetta with the Amphibryon, these being the vessels which were ordered held in at Kiel for this present business.

The most interesting phase of the new situation is that the officials suspect Germany and Great Britain, such great naval powers, have made common cause to see how far they can go against the Monroe Doctrine.

If that be on the cards the action of Germany and Great Britain is the most serious and important which has confronted the United States since the Spanish War.

The renewal of the German-English program which was thought to have been laid aside, is believed here to be due to the failure of the scheme to get the United States to become a party to the coercion of Venezuela, although the coercion was placed in the tempting guise of allowing the alleged debts to be settled by an American syndicate.

I. N. Seligman and his associates were not given any encouragement, although it was heralded that they were debts to be settled by an American syndicate acting for Great Britain and Germany.

The President and Secretary, Hay

have considered foreign interference in South America from all points of view and the policy is a fixed quantity. The issue is in fact already made up. Here is the issue:

The President proclaims to Germany and to other foreign nations that they can collect just debts from republics on this continent without an infringement of the Monroe Doctrine. Violations of the doctrine will be resented by the whole United States Navy and Army. One official very close to the President said:

"In case of serious trouble with any foreign nation making trouble in South America the United States Army would be transformed into a marine corps."

Great Britain and Germany may constructively seize custom houses in Venezuela, but if they should their tenure must be by stipulation with the United States as to length of tenure.

It is, of course, understood by this Government that foreign nations would be obliged to hold some South American custom houses indefinitely for the payment of a debt, and that would amount to a violation of the Monroe Doctrine.

The United States is not informed as to the present program of Great Britain and Germany, but the statement can be made that the collection of any debts from Venezuela by those Powers will be on terms which must be agreeable to the United States or there will be no occupation of Venezuelan custom houses.

DEFINITE WORD AWAITED.

London, Dec. 4.—Great Britain and Germany, according to official statements made here, have commenced punitive measures against Venezuela. German war vessels, it is stated, are already on the scene of the contemplated action, and Great Britain by today, should have a squadron there capable of coping with any desistance that Venezuela might offer.

Meanwhile the Associated Press correspondent is informed no definite answer has yet been received from Washington by the financiers here who wish to bring about a pacific settlement. An independent communication one way or the other is expected from Washington today.

If the United States is willing to guarantee its moral support to the request that Venezuela be allowed time to fulfill the suggested bargain the plans thereof will at once be submitted to the British foreign office. If Washington refuses to suggest to the European powers that Venezuela be allowed time, it is probable that the financial house now interested will drop the plan altogether. In the latter alternative the Venezuelan delegation here is likely to submit the suggested settlement to the British and German Governments, with an application for time to admit of their entering into negotiations with other financial interests.

The Venezuelan delegates maintain that their status has been seriously affected by the adoption of the aggressive measures announced but they declare that it would be obviously bad policy, in spite of the critical position of their country, to make any suggestion to Europe until the attitude of the United States both as a joint creditor and a largely interested political power has been ascertained.

The Associated Press correspondent is in a position to state that Venezuela

CHANGE OF LIFE.

Some sensible advice to women passing through this trying period.

The painful and annoying symptoms experienced by most women at this period of life are easily overcome by Lydia E. Pinkham's Vegetable Compound. It is especially designed to meet the needs of woman's system at the trying time of change of life.

It is no exaggeration to state that Mrs. Pinkham has over 5000 letters like the following proving the great value of her medicine at such times.

"I wish to thank Mrs. Pinkham for what her medicine has done for me. My trouble was change of life. Four years ago my health began to fail, my head began to grow dizzy, my eyes pained me, and at times it seemed as if my back would fall, had terrible pains across the kidneys. Hot flashes were very frequent and trying. A friend advised me to try Lydia E. Pinkham's Vegetable Compound. I have taken six bottles of it and am to-day free from those troubles. I cannot speak in high enough terms of the medicine. I recommend it to all and wish every suffering woman would give it a trial."—BELLA ROSS, 88 Montclair Ave., Rosindale, Mass.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

RIGHTS AND DUTIES.

(Christian Science Sentinel.)

Christian Scientists present themselves to the world as a people consistently following the teachings of Jesus, the accepted Master and Exemplar of Christianity, rendering to God the things that are God's, and to Caesar the things that are Caesar's. Their position is that of law-abiding citizens, enjoined to be scrupulously exact in observing the laws of the land, careful of the rights of their fellowmen, asking no more for themselves than they are willing to grant to others, and patiently to seek the religious liberty guaranteed to all men under the constitution of all free countries.

The first amendment to the constitution of the United States provides that

"Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof; and further (14th amendment, Sect. 1) that 'no state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States * * * nor deny to any person within its jurisdiction the equal protection of the laws.'

The essential features of these provisions of the federal constitution reappear in the constitution of the several states, of which the following excerpt from the constitution of the State of Illinois may serve as an example:

"The free exercise and enjoyment of religious profession and worship without discrimination shall forever be guaranteed; and no person shall be denied any civil or political right, privilege, or capacity, on account of his religious opinions."

In a majority of the progressive and enlightened nations of the world, some form of the Christian religion, the teachings of Jesus Christ, is prescribed as the religion of the State, in others Christianity is recognized as the prevailing religion of the people. The United States is within this latter class, because the great majority of our people profess some form of Christianity. We may therefore say that this is a Christian country, and no one should have the hardihood to dispute the right of any and every person to practice Christianity, or, as Webster defines it, "the system of doctrines and precepts taught by Christ."

No one at all familiar with the New Testament will deny that Jesus Christ taught his followers to heal the sick, that he used no material means in healing those who came to him, that he taught his followers to heal as he healed, and that his immediate followers healed without material means. It is therefore a fact that the religion of Christ includes healing without drugs or other material remedies, and this has been recognized in some degree, in Christian history, of all faiths.

The establishment of this fact places Christian healing within the protection

of the religious liberty guaranteed by the constitution. The fact that so-called material science has declared for a system of drugs does not alter the fundamental law of the land, nor does it give reason for invading the personal and religious liberty of the people.

A different phase of the question is presented, however, in the matter of reporting cases of so-called contagious disease, in keeping with the law or regulation which, subject to the above constitutional limitations, has been enacted with a view to conserve the public welfare, and so long as the law demands that such cases be reported, Christian Scientists should be prompt and unflinching in their obedience and give the public the benefit of any serious doubt which may attend the classification of disease. Respecting this our Leader has said:—

"On the subject of reporting contagion I have this to say: I have always believed that Christian Scientists should be law-abiding and, actuated by this conviction, I authorized the following statement, which appeared in the Boston Herald about one year ago:—

"Rather than quarrel over vaccination, I recommend that if the law demands an individual to submit to this process, he obey the law; and then appeal to the gospel to save him from any bad results. Whatever changes belong to this century, or any epoch, we may safely submit to the providence of God, to common justice, individual rights, and governmental usages."

"This statement should be so interpreted as to apply, on the basis of Christian Science, to the reporting of contagion to the proper authorities when the law so requires. When Jesus was questioned about obeying the human law, he declared: 'Render unto Caesar the things that are Caesar's, even while you render unto God the things that are God's.'"

Healing through Christian Science has been before the public for some thirty-six years, and notwithstanding that it has been the subject of bitter criticism and merciless attack, it has won its way to public confidence through the healing of every form of disease.

Its adherents are healthy, happy men and women, and in unnumbered cases they were made healthy and happy, through Christian Science after years of suffering; and after medical and surgical treatment had utterly failed. If there were but one such case it would present justification for the existence of the Church of Christ, Scientist, but there are thousands. To demand of Christian Scientists unvarying success in overcoming disease; is to subject them to a test which would utterly and forever condemn the material methods of treatment for which the exactors stand. While Christian Scientists rejoice in achievements which have removed all doubt, both as to the sufficiency of the Principle of Christian Science, and as to the only safe and wise course for them to pursue, they recognize that they are but relative beginners in the apprehension of Truth, and they point to Jesus as the only perfect demonstrator of the healing power.

Undoubtedly the list of thirty-five failures within six years, recently compiled by a critic is not complete, but if there were several times that number the percentage would still be so far below the normal death rate under medical practice as to accentuate the fact that Christian Science is more efficient.

We have heard no whisper of indicting the physicians and parents of the 1,145 who died of diphtheria in six months in Greater New York.

Since Christian Science has been before the public, hundreds of reputable persons have testified that they have been so enlightened by reading the text-book, "Science and Health with Key to the Scriptures," by Mary Baker G. Eddy, that they have been healed, and very many of them after they were given up by physicians. Mrs. Eddy is constantly in receipt of thanks and encouraging words from Archbishops, Doctors of Divinity, eminent lawyers, and loving children.

The prosperity of our Cause, and the health and regeneration of mankind demand that all Christian Scientists shall awake to every thought that quickens their spiritual perception. They must remember that "In Science, Divine Love alone governs man" (Church Manual) and steadfastly consecrate themselves to the service of God.

ATTRACTIONS

At Taylor Hall, Y. M. C. A. Block for Saturday Night and Sunday Afternoon.

Some specially strong attractions are being announced by the Y. M. C. A. both for the Popular Saturday Night Entertainment and the Sunday afternoon Men's Meeting.

The Saturday night program will be given by Mr. Urlin G. Perrill, humorist, impersonator and characterist, assisted by Miss Belle White, vocalist, and Mrs. Karl Ashton, pianist, all of Columbus. A full program will be published later. It is safe to say that whatever they give will be very fine, and it is to be hoped that the large attendance of the last three weeks will be repeated Saturday night.

Sunday afternoon the "Denison Overture," a double quartette of male voices will give a short musical program preceding the address. In order that entire afternoon's program may be through with by 5:30 at which time the Union meeting of the Young People's Societies of the city is to be held, the service Sunday will begin at 3 o'clock instead of 3:30, the usual hour. The address will be given by Dr. Joseph Kyle of Xenia, Ohio, the man as the Dayton Association paper puts it "who always makes a hit when he addresses a men's meeting."

Dayton has had him several times. That in itself is a strong recommendation.

CHANGE OF CLIMATE.

Not Necessary in Order to Cure Catarrh.

The popular idea that the only cure for chronic catarrh is a change of climate, is a mistake because catarrh is found in all climates in all sections of the country; and even if a change of climate should benefit for a time the catarrh will certainly return.

Catarrh may be readily cured in any climate, but the only way to do it is to destroy or remove from the system the catarrhal germs which cause all the mischief.

The treatment by inhalers, sprays, powders and washes has been proven almost useless in making a permanent cure, as they do not reach the seat of disease, which is in the blood and can be reached only by an internal remedy which acts through the stomach upon the blood and system generally.

A new discovery which is meeting with remarkable success in curing catarrh of the head, throat and bronchial tubes, is sold by druggists under name of Stuart's Catarrh Tablets.

These tablets which are pleasant and harmless to take owe their efficiency to the active medicinal principles of Blood Root, Red Gum and a new specific called Guaiacol, which together with valuable antiseptics are combined in convenient palatable tablet form and as valuable for children as for adults.

Mr. A. R. Fernbank of Columbus, O., says: I suffered so many winters from Catarrh that I took it as a matter of course and that nothing would cure it except a change of climate, which my business affairs would not permit me to take.

My nostrils were almost always clogged up; I had to breathe through the mouth, causing inflammation, irritated throat. The thought of eating breakfast often nauseated me and the catarrh gradually getting into my stomach took away my appetite and digestion.

My druggist advised me to try a 50 cent box of Stuart's Catarrh Tablets, because he said he had so many customers who had been cured of Catarrh by the use of these tablets, that he felt he could honestly recommend them. I took his advice and used several boxes with results that surprised and delighted me.

I always keep a box of Stuart's Catarrh Tablets in the house and the whole family use them freely on the first appearance of a cough or cold in the head.

With our children we think there is nothing so safe and reliable as Stuart's Catarrh Tablets to ward off croup and colds and with older people I have known of cases where the headache had been so long impaired by chronic catarrh and entirely by this new remedy.

BANQUETS FOOTBALL TEAM OF DENISON.

Union Club's Dinner Saturday—Wesley Johnson's Funeral—Granville News of the Day.

Granville, O., Dec. 4.—Dr. E. W. Hunt, President of Denison University, entertained the members of the Denison football team and the Board of Control of the Athletic Association at an elaborate turkey dinner at the Buxton House on Wednesday evening at 6 o'clock. Denison's football team has been unusually successful this season in its contests with teams of other universities and colleges, having been pitted against some of the best teams in the state, and having achieved a large per cent of success.

Dr. Hunt is a great admirer of athletic sports in connection with college duties, and he gave the dinner as a token of his appreciation of the excellent work done, and the high standard taken by the members of the football team, as well as the efficient and valuable services rendered by the Athletic Association. Some twenty-five persons sat down to the dinner, which was elaborate and elegant in all its appointments throughout, maintaining in every respect the high standard of the Hotel Buxton. Speech-making enlivened the occasion, which was one of the most enjoyable and successful of the kind ever held in the classic village of Granville.

The Union club of Granville will give an elaborate dinner at the Hotel Buxton on Saturday evening, December 13, at which plates will be laid for about forty-five young ladies and gentlemen. The rooms will be decorated with the colors of the club, and there will be music, toasts, etc. A fine time is anticipated.

Wesley Johnson, colored, one of the best known residents of Granville township, died at his home in Clouse's Lane, one mile east of Granville, on Monday night at 10 o'clock, from the effects of a paralytic stroke received several weeks ago. The deceased was aged 68 years and was highly respected by all who knew him. The funeral took place on Wednesday afternoon. The services were held at the late home of the deceased and were conducted by the Rev. Bunyan Spencer of this place. Interment was made in the Welsh Hills cemetery. The deceased leaves five sons and three daughters to mourn his death. They are Hunter, Samuel, Port, John and Walter Johnson. Mrs. Rosa Wright, of Mt. Vernon, and Misses Mary and Bertha Johnson, who lived at home. Mrs. Johnson died several years ago.

The Thanksgiving Extra of the Ciceronian Literary society of Dean Academy was held in Cicero Hall on Wednesday evening, December 3. There was a good attendance, and the program was much enjoyed by all who were present.

Mr. and Mrs. S. P. Patterson of Stockport, O., spent Thanksgiving with his sister, Mrs. Ackley.

Mrs. Frank Granger and daughter, Frances, delightfully entertained at the home of the deceased on Saturday evening. This was the first meeting the club has held this year, and it was a happy beginning of the season's meetings. The day was spent in social pleasures, in musical and instrumental music. At 12 o'clock, a elaborate luncheon was served. The

guests of the club were Misses Hughes, Pitchard, Mayme and Martha Geach.

Mr. Charles Grnsdorf has purchased the transfer and ice business formerly carried on by George Bash, and stands ready to fill all orders promptly. At present he is quite sick at his home at Center Village.

Mrs. W. H. Kussmaul gave a reception on Wednesday afternoon, at her home on Prospect street, at which she entertained a large number of her lady friends. Luncheon was served, and all who were present had a delightful time. A number of Newark ladies were present.

Mrs. Fina Barber and daughter, Bernice, of Columbus, are visiting friends in town.

Mrs. A. Kidder is visiting relatives in Columbus and Westerville.

Miss Artie Rapp of Richmond, who has been visiting her uncle, William Geach and family, for some days, returned home on Friday.

Mrs. J. J. Malone is in Republic, having been called there by the serious illness of her mother, Mrs. Colwell.

Mrs. F. Vanastrom of Black Run, spent a few days last week with her daughter, Mrs. M. Carter, and sister Mrs. Jennie Wright.

Mrs. C. Vanastrom of Black Run, who has been visiting the family of George Carter, has returned home, having had a delightful visit.

LOSING HIS GRIP.

"Tell the truth, now. You are a professional beggar, are you not?" said the keen-faced individual who had been traced.

"I used to think I was," replied the weary wayfarer, "but since 13 cents and an exchange ticket are all I have to show for a day's work I am forced to the conclusion that I am merely an amateur."—Philadelphia Record.

HAD PIMPLES Blood Wine Only Medicine That Cured

A beautiful skin, either in man or
woman, a skin free from pimples,
blotches, blackheads, sores, patches, red
spots, and the oily and greasy appear-
ance common to some, is a treasurable
possession. About one person in every
five has an unsightly face, purely on
account of the diseased condition of the
blood.

Mrs. Mary Young Clark of Lawrence,
Mass., says:

"For years I suffered from the
condition of my face, which never seemed
from little boils and pimples. It looked terrible
and felt worse. I tried all kinds of washes and
ointments with no relief. I took every sort of
medicine advertised as a cure, but my face re-
mained unsightly. My physician said it was my
blood, but whatever they gave me only seemed
to make it worse. Really, I gave up in despair.
I didn't know what to do with myself. One day
a friend told me about 'Blood Wine,' and I
told her I would try it. I got a bottle, and the
effect it had upon me was wonderful. Almost
immediately the pimples commenced to disap-
pear and my skin became clearer. I con-
tinued until I had taken six bottles and was
thoroughly cured. My general health, too,
improved from the beginning, and today I am a
healthy, happy woman, with a clear skin, free
from sores or disfigurement, a proof of the far-
reaching effects of 'Blood Wine.'"

This is the way it works on all people
whose blood is impregnated with disease
or impure matter. It absorbs all the
germs and passes them out of the
system. Try it today for any form
of diseased blood, bad complexion or
skin, and watch its marvelous action.
By sending your name to the Louis
Daudelin Co., Worcester, Mass., you can
have your blood examined free by an
expert under the microscope.

"Blood Wine" costs fifty cents a bottle.

Sold at City-Drug store.

THE DEVIL'S AUCTION.

Manager Yale's claim that the "Dev-
il's Auction" is the oldest in name yet
the newest in point of novelty, can
well be substantiated in this, the 21st
edition of this famous spectacle, as
everything is new from the time the
curtain rises on the first act until it is
rung down on the beautiful new trans-
formation scene "A Tribute to Our
Country" at the close of the perform-
ance. Every act, novelty and feature
is new, all the scenery, properties, etc.
In fact not one old feature is retained
and the theatre going public of New-
ark certainly have a treat in store for
them on next Saturday night, Decem-

offers the payment on a unified loan
of over \$3,000,000 interest yearly guar-
anteed by the customs with the estab-
lishment of a European bank at Car-
acas to superintend the collection. The
whole plan is on a basis similar to that
on which Brazil satisfied its European
creditor. If such a method is now fol-
lowed the Venezuelan delegation main-
tains that all claims can eventually
be met, whereas it alleges that the
temporary seizure of the customs
would so disturb the commerce of the
country as to practically render it im-
possible to satisfy the European bond-
holders, and would bring with it the
danger of another revolution. All
these details are still unknown to the
powers who have ordered their war-
ships to Venezuela. In spite of the an-
nouncement of joint action by Great
Britain and Germany the British Min-
istry exhibits not a little perplexity
over the Berlin dispatch December 1,
announcing that President Castro had
handed to the German minister at Car-
acas a written acceptance of part of
Germany's claims, sufficiently com-
prehensive to delay the presentation of a
joint ultimatum by Germany and Great
Britain if not rendering it alto-
gether unnecessary, and also stating
that it was understood that Great Brit-
ain's demands would be satisfied. Not
the slightest official information to
this effect has reached London.

LABEL SUIT

IS FILED AGAINST BREWERY
WORKERS

By Frank Graef of This City--Brewery
Strike at Cincinnati Has Been
Ended.

Frank H. Graef by his attorneys, S.
L. James and Smythe & Smythe has
brought suit in the Common Pleas
Court against George Ashley et al,
naming nine other defendants compris-
ing Local 162 United Brewery Work-
men of America. He alleges that these
and other members of Local Union 162
United Brewery Workers caused to be
published in newspapers of said city
a false and malicious label, to wit: That
Graef Brothers, by which firm name
plaintiff is meant, had been placed on
the unfair list by the Newark Trades
Union and Labor Council.

By the publishing of this alleged li-
bel plaintiff claims to have been in-
jured, particularly among laboring
men and members of labor organiza-
tions, in the sum of \$1000, and in ad-
dition that he has been damaged in his
standing and reputation in the sum
of \$3000.

Graef conducts a saloon and restau-
rant at 31 South Third street.

STRIKE SETTLED.

William Graef has just received the
following telegram from the Windisch
Mulhauser Brewing company, makers
of Lion beer, at Cincinnati: "Brewers
strike is settled. Notify your cus-
tomers."

At Cincinnati last night Messrs.
Hauck, Andrea and Jung, the Labor
Committee of the Brewers' Exchange,
entered into a contract with the rep-
resentatives of the brewery workers'
union, by which everything was set-
tled, and the boycott on the beer man-
ufactured by members of the Brew-
ers' Exchange is raised; that is, all
union men can from today on drink
beer manufactured by the members of
the exchange without violating
pledges to their unions.

Under the contract the brewery
owners have the right to employ and
discharge whom they please, so long
as those persons are members of the
brewery workers' union.

The men employed at present in
the breweries who are not union men
must join the union or quit.

The hours and wages remain the
same as under the old contract.

The only other matter to be settled
was the question of the position of
the engineers and firemen in the Cin-
cinnati breweries. It will be remem-
bered that they were expelled from the
Central Labor Council, and that
after that their charter was revoked
by the International Union of Station-
ary Engineers. The members of the
Brewers' Exchange declined to go in-
to any contract until this question was
settled. The result was that President
Lighthall of the International Union
of Stationary Engineers, last evening
appeared at the offices of the Brewers'
Exchange and agreed to restore the
charter of the local organization of
Stationary Engineers. This was
necessary in order that a contract
might be signed with the members of
the Brewers' Exchange.

For instance, members of the Cin-
cinnati organization of Stationary En-
gineers and Firemen became non-
union workmen from the time their
charter was revoked by the national
officers, and in order that they may
become union workmen again their
reinstatement is necessary. President
Lighthall agreed to this last evening,
and this ended the matter.

THIS IS TRUE.

The wise outlay of money is in a
permanent home. There the family
comes together daily after the stress
and storm of life as to a refuge. The
possession of a home, however hum-
ble, gives one a sense of permanency,
of vested rights; awakens public spirit
and patriotism and arouses emulation.
It is a foundation on which to build,
a point from which to advance. Every
flower enhances the value of the home

endured by recollection.

WITH A PISTOL

Young Tice Noland Killed Himself Early Thursday
Morning at His Home South of Newark--
The Affair is Mysterious.

Tice Noland, 23 years old, son of
Charles Noland, killed himself Thurs-
day morning at his home on the old
Crow farm, four miles south of New-
ark and not far from Jacksonton.

The young man shot himself through
the temple.

The suicide is thus far mysterious
as no reason is assigned Noland, who
was a well known young man, was
married about one year ago to Mr.
Albert Boring's daughter at Linn-
ville, and has been living happily
with his wife on a farm.

He arose at the usual time Thurs-
day and after breakfast took a small
looking glass and a revolver and went
to the spring house. It is supposed
that he took the mirror in order to
direct the pistol shot. His aim was
good as the bullet entered the temple,

evidently causing instant death. No-
body in the house heard the pistol
shot and it was some time before the
suicide was discovered. Mr. Noland's
young wife had occasion to visit the
spring house and when she entered
the door found the dead body of her
husband lying on the floor with the
pistol, one chamber of which was
empty, and the mirror lying by his
side.

Mr. Noland's mother had recently
presented him with a new suit of
clothing but he had removed the coat
and donned an old coat before going
into the springhouse to end his ex-
istence. The new coat lay nearby.

The whole neighborhood has dis-
cussed the case all day but as yet no
satisfactory solution is given to the
mystery.

Strike Commission.

Scranton, Pa., Dec. 4--Andrew Mat-
ty, a miner, employed by Coxie Broth-
ers, was the first witness to take the
stand before the strike commission
this morning. He said that it took
about 15 years to become a practical
miner, thoroughly acquainted with all
departments of the work. Matty told
of the difficulties of securing cars to
load and that frequently he had to
remain in the mines all day and only
receive one car. Asked if he had
saved any money by mining, Matty
answered proudly "I had as much as
twenty dollars in my pocket once."

Mr. Sherwood, secretary of the Tro-
mer Malt Works, of Fremont, was in
the city today.

SMITH'S GREEN MOUNTAIN RENOVATOR

"I was afflicted with secondary syphilis and used your Green Mountain Renovator for the same. I had the last time I wrote you a large, hard tumor on the thigh gland, and a hard cough, with sore chest, and I am pleased to state that I am glad you insisted on my using the Renovator. I have used about twelve bottles, but have not used any for over two months now. I am glad to say today that my right limb, which was paralyzed almost entirely, is well, together with the foul ulcers which I had (five of them). They are cured, and have not broken out for two months now. The tumor on the gland has disappeared entirely; my cough is gone, am gaining flesh, and am feeling perfectly well in every respect."

All such ills as are commonly known as Consumption, Scrofula, Derangements of the Liver and Kidneys, Facial Eruptions, Indigestion, Nervousness, Sleeplessness, and Insanity, together with all forms of Rheumatism, Cancer, Tumor, etc., are the outcome of blood impurities. Try Smith's Green Mountain Renovator on your recommendation; you will be satisfied with the results; if you are not, we will return to you what you pay for the remedy.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. Detroit, Mich., January 15, 1902.

Gentlemen,—Although I am not yet twenty years of age, I have suffered for nearly seven years with severe stomach troubles and while I have spared no money in treatments, I had found no relief. In fact, I had about given up hopes of ever being well and strong again. I received a sample bottle of

Dr. Caldwell's (Laxative) Syrup Pepsin

and was so pleased with the effects of the first few doses that I decided to try once more, and my husband at once bought a large bottle, that I need not miss taking after having commenced. I am pleased to say that my improvement was marked from the first, and I now consider myself permanently cured. I feel that I can not praise Dr. Caldwell's Syrup Pepsin too highly. My husband commenced taking the remedy as soon as he saw what it was doing for me, and we are now recommending it to all our friends.
Yours very truly,
Miss M. J. BAERGER, Jr., 220 Antoine St.

"Cured me permanently"

The Worst Thing for a Cough is to Cough!

Coughs are warnings of something amiss in throat or lungs. Don't mind the cough, mind the cause. Use a remedy that will go to the source of trouble and cure that. Such a remedy is

SMITH'S UNIVERSAL COUGH CURE

It cures promptly and thoroughly because it cures in the right manner: Relieves irritation, heals the inflamed surfaces, loosens the cough and soothes and strengthens while it cures. A splendid remedy for children because it is so good to cure and so good to take. Price 25 and 50 cents.

NATURAL GAS

FROM HOMER FIELD WILL BE HERE IN FEW DAYS.

Everett Ten Inch Pipe Line is Almost Finished—Gas to be Here Next Week.

At the present time and for several weeks past, E. H. Everett has a large force of men laying a 10-inch natural gas main from the Homer field to Newark, and within a few days it is expected that this main line will be connected with the city system and as early as the coming week consumers of natural gas will be supplied with gas from the Everett wells through the pipe line system of the city now owned and operated by the Newark Natural Gas and Fuel company.

At the present time Mr. Everett has 13 producing gas wells in the Homer field and a very large area of land under lease. It can be stated positively that Mr. Everett's interest in the Licking-Knox county gas field is second to none.

This arrangement by which Newark will get gas from the Everett wells insures natural gas for this city for years to come. As long as Licking county has natural gas for anybody Newark will have it and besides this the city has the gas from the Logan territory about Sugar Grove and elsewhere to fall back upon.

In the case of the State of Ohio vs. John Henry, indicted for burglary and larceny, the jurors returned a verdict of guilty. The defendant was charged with breaking into a watch house in the east end of the B. & O. yards, this city, and taking two coats and a lunchbox. A motion for a new trial, has been filed, setting forth various alleged errors in the trial. Fitzgibbon; Bolton.

The case of Ohio vs. Georgia Nixon is on trial to the Court and jury today. The State charges the defendant with selling intoxicating liquors in a brothel. Fitzgibbon; Smythe & Smythe.

ATTENTIONS

Of Others Than Her Fiance May be Accepted by a Maiden, Declares This Judge.

Toledo, O., Dec. 4.—Judge Templeton has handed down a unique opinion on the ethics of marriage engagements, and at the same time bound Charles White over to the Probate Court on the charge of making an alleged assault on Henry Valentine, whom White accused of making love to Miss Mamie Bosley, of 1788 Summit street.

White claimed that he and Miss Bosley were engaged to be married, and for that reason Valentine had no right to be paying attentions to her, and for doing so White claimed he was justified in administering to him a beating. Judge Templeton summed the case up as follows:

"White has seemed to think that Miss Bosley is an automaton—his personal property—a chattel. An engaged woman has the right to go with others. The fiance may have an action against her for breach of promise; but he can have no action against the third party. An engagement is merely a promise to enter into the marriage contract. The engagement made, of course, he held sacred, but just the same the lady has the right to accept the attentions of other men."

Two Men Killed.

Hazleton, Pa., Dec. 4.—While a car containing six men was being lowered into Cranberry mine last night, the engineer lost control of the car, which struck the bottom with a terrible crash. Two men Elmer Kirschner, a carpenter boss and Gustav Strack, a carpenter, were instantly killed. Others were severely injured. The men were sent into the mine to replace the pumps that were removed during the recent strike.

FRANK D. HALL SUCCESSFUL

Induced Dr. Howard Company to Make Special Price.

After a great deal of effort and correspondence, Frank D. Hall, the popular druggist, has succeeded in getting the Dr. Howard Co. to make a special half price introductory offer on the regular 50 cent size of their celebrated specific for the cure of constipation and dyspepsia.

This medicine is a recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but makes permanent cures.

Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles, that Mr. Hall is willing to return the price paid in every case where it does not give relief.

The old fashioned idea of dosing with mineral waters, cathartic pills or harsh purgatives will soon be a thing of the past. The best physicians are prescribing Dr. Howard's specific because it really gives the desired results and on account of the small and pleasant dose that is needed.

Headaches, coated tongue, dizziness, gas on stomach, specks before the eyes, constipation and all forms of liver and stomach trouble are soon cured by this scientific medicine.

So great is the demand for this specific that Mr. Hall has been able to secure only a limited supply, and every one who is troubled with dyspepsia, constipation or liver trouble should call upon him at once, or send 25 cents and get six boxes of the best medicine ever made on this special half price offer, with his personal guarantee to refund the money if it does not cure.

There's nothing so bad for a cough as Ayer's Cherry Pectoral!

There's nothing so good for a cough as Ayer's Cherry Pectoral!

A cough means a great deal to a young person, when there is a family history of weak lungs, with perhaps a case of consumption itself. Coughs weaken the tissues, congest the membranes, and prevent healing. Ayer's Cherry Pectoral controls the congestion and inflammation, and the cough disappears. Your doctor will explain, for we give all doctors the formula.

"We have used Ayer's Cherry Pectoral in our family for over 25 years. For all lung troubles I am sure there is no medicine its equal."—MRS. A. POMEROY, Appleton, Minn.

Latest Fashion Notes

Costume of English Suiting.

The costume here illustrated is of
blue and green English suiting in mix-
ed effect with a vest of soft white silk
and velvet and ornaments for deco-
rations. A drop shoulder collar is a
pleasing feature and the sleeves droop
over plain cuffs. The flounce in the
gored skirt is headed by velvet ribbon
and trimmed at the lower edge, all the

stitching being done with Corticelli
spool silk. A flat velvet collar finish-
es the neck.

Especially smart are the rather se-
verely designed dresses of checked
silk showing green and blue instead of
the black and white and blue and
white which have been so much used
during the past season. Little if any
trimming is employed. The foundation
slit should match either color in the
check or else be made of soft taffeta
showing the two colors blended.

Foils a Deadly Attack.

"My wife was so ill that good phy-
sicians were unable to help her,"
writes M. M. Austin of Winchester,
Ind., "but was completely cured by
Dr. King's New Life Pills." They
work wonders in stomach and liver
troubles. Cure constipation, sick
headache, 25c at Hall's drug store 12
